About Minuteman

Since 1985 Minuteman International has been manufacturing a full line of rugged industrial cleaning equipment. Innovative design features and cost effective reliable operation have proven to be why our customers continue to choose Minuteman International sweepers and scrubbers. Worldwide factory trained service and parts distributors provide timely response to keep your Minuteman International units performing in the most demanding environments.

Minuteman International has three lines of focus that manufacture a full line of maintenance products, including Minuteman commercial cleaning equipment with critical air vacuums, industrial and commercial vacuums, floor and carpet machines, PowerBoss Industrial sweepers and scrubbers, and MultiClean Chemicals for industrial, commercial and institutional use.
